

# DISPENSE CENTER OF EXCELLENCE

Where Precision, Automation, and Application Expertise Come Together

OTC Industrial Technologies is proud to introduce our new Dispense Center of Excellence at our Tape Louisville Facility - an innovative, hands-on environment designed to help customers test, validate, and optimize their dispensing application with confidence.

## What makes the Dispense Center of Excellence Different

- ✓ **Validate Your Process Before Production**  
Test your actual sealant or adhesive materials utilizing production grade equipment to prove out performance and eliminate costly guesswork
- ✓ **Precision Dispense & Automation Expertise**  
Hands-on experience with advanced systems like PR70V, HFR, and EVR for high-accuracy mixing, metering, and dispensing applications.
- ✓ **Sealer Robotics in Action**  
Three dedicated demonstration bays featuring FANUC robotic solutions (M-710iC/50 and M-20iD/25L) for real-world dynamic automation testing.
- ✓ **Collaborative Development Environment**  
Work alongside OTC experts, equipment suppliers and your material suppliers to develop, refine, and confirm application specifications.
- ✓ **Training That Sticks**  
On-site learning center for customers offering hands on training and best practices.

## GRAND OPENING

 June 4, 2026

 Louisville, KY

- ▶ Guided Facility Tours
- ▶ Live equipment and robotic demonstrations
- ▶ Meet our team of dispense application experts
- ▶ Discuss your current challenges and future lab needs

**RSVP TODAY**

**FANUC**
